## Storm At Sea

This traditional pattern has intrigued quilters and quilt appreciators alike for generations. Now with the use of the Creative Grids Storm At Sea ruler, it can be made accurately and simply with stunning results!

Because there are sew very many ways to choose colors for this beautiful quilt, I've broken the yardage requirements into yardage for specific pieces. Whether you want to make the quilt scrappy, 2-color, 3-color or blended, it should be easy for you to calculate your yardage needs. You might alsew consider blending fabrics among the same shapes as was done with the cover quilt. In that case, divide the yardage per-shape by the number of fabrics you will be using. [When blending fabrics, allow slightly more than the total yardage amounts per-shape for the size you are making.]

a. center small SNS
b. 1st round small SNS
c. 2nd round small SNS

1. center diamond
2. outer diamond

A. center lg SNS
B. 1st round lg SNS
C. 2nd round lg SNS

Wallhanging ~ 40" x 52"
a. ¼ yd	1. ¾ yd	A. ¼ yd
